CFO/CONTROLLER SERVICES

Whether you have a small company that cannot justify the overhead of hiring an accounting staff or an established business that needs help with a special project, reporting or the next level of financial support and guidance, our Outsourced Services Group can help. Our goal is to use our experience and expertise to bring performance-oriented value by guiding companies through a three-step process. We deliver a customized plan that addresses accounting, financial and management needs specific to your industry and organization.

We understand that a CFO or Controller is a forward-thinking professional whose responsibilities include leading the accounting department and providing oversight in the preparation of historical information. These professionals also provide insight for interpreting historical information to better plan for future profitability.

Whether you want to enhance your existing accounting department or outsource your company's accounting functions, we can deliver the right mix of services ranging from senior level CFO Services, to Controller Services or even the daily requirements of accounting and bookkeeping services.

Our CFO/Controller services include:

- Strategic Planning
- Financing Liaison
- Forecasting and Budgeting
- Performance Reporting
- F&A Project Oversight
- Accounting Software Integration

ACUMEN

Our Acumen team creates and implements a customized plan that addresses your financial and management needs specific to your industry and organization. We begin with leadership interviews that allow us to outline enhancements, efficiencies and improvements that drive accountability,

profitability and management effectiveness in your organization. We then execute the plan with your team members to ensure value is added and results are achieved by utilizing best-in-class cloud-based financial management and accounting solutions to integrate into your existing business. Our advisors work seamlessly with the key applications you currently use to run your organization. Beyond that, we build dashboards that tell the story of your business and meet all your reporting needs by providing insight and accountability.

PAYROLL

Our Firm is knowledgeable and experienced in payroll services, which can alleviate potentially harmful financial errors and add time back to the capacity of your company employees. We are practiced in streamlining and expediting payroll processes, while simultaneously taking the utmost care of sensitive information.

Our payroll services provide you with real-time payroll information at the click of a button. We deliver accurate and timely payments to employees with every payroll, while working to minimize legislative and tax compliance risks. We reduce the worry associated with payroll, allowing you to focus on running your business.

Our Payroll services include:

- Online payroll solutions
- Payroll platforms custom fit to your company size
- Full service outsourced payroll solutions
